Professional Services By Category During the Period

10. O'Keefe classified all services performed for which compensation is sought into separate categories. Summarized below is a description of the services provided by O'Keefe to the Debtor during the Period in each significant service area.

11. The following summaries are intended only to highlight key services rendered by O'Keefe during the Final Period in certain project billing categories where O'Keefe has expended a considerable number of hours on behalf of the Debtor and are not meant to be a detailed description of all the work performed by O'Keefe. The primary focus of O'Keefe was centered around the following areas:

Accounting & Auditing (17.9 hours)

This category included advising and assisting the Debtor(s) with financial statements and weekly forecasts and preparing the necessary weekly cash flow statements necessary to facilitate the ongoing business in anticipation of a sale process. These analyses were required under the cash collateral Order and allowed the parties in interest to determine whether a sale was in the best interests of the bankruptcy estate

Asset Disposition (14.6 hours)

This category includes preparation of reports to, and communications with, the DIP Lenders, the Official Committee of Unsecured Creditors, their respective advisors, various other creditors, other parties-in-interest, and the U. S. Trustee, and attending and participating in meetings regarding this data and analyses. Ultimately, the parties in interest consented to a voluntary sale of the Debtor's assets as a going concern and were only able to make this determination with financial data. This data was procured by Applicant from Debtor and its Interim CFO and staff, and analyzed by Applicant, so that the parties and the Court could make informed decisions.

Business Analysis (174.7 hours)

This category includes cash flow forecasting, assessment of the Debtor's operational capabilities, analysis of underlying business results and trends, meetings with management and the other professionals in the case regarding the results of O'Keefe's analyses and findings, and development of financial projections and related analyses.

Case Administration (87.1 hours)

This category includes advising and assisting the Debtor with the timely reporting and preparation of financial analysis and attending hearings as needed.

Claims Administration (32.2 hours)

This category includes advising and assisting the Debtor with the development of a claims resolution process including responding to specific claim inquiries, determining compliance with bar dates, analyzing claims, and assisting in settling claims and requests for administrative expenses. By way of example, throughout the case, there were numerous issues regarding amounts owed various critical vendors and Applicant's analysis was required to determine what the proper prepetition and post-petition arrearages were so that the parties could agree on cure costs.

Tax Issues (3.3 hours)

Includes time spent dealing with payroll and income tax issues and consulting with preparers regarding the tax returns

12. O'Keefe believes that the fees requested are reasonable, and all amounts requested are for actual and necessary services rendered on behalf of the Debtor.

13. O'Keefe has not entered into any agreement, express or implied, with any other party for the purpose of fixing or sharing fees or other compensation to be paid for professional services rendered in this case. No promises have been received by O'Keefe or any member thereof as to compensation in connection with this Chapter 11 Case other than in accordance with the provisions of the Bankruptcy Code.

14. A biographical statement of each professional is attached hereto as **Exhibit 5**.

15. As a consequence of negotiations with the parties in interest in the case, a carve-out for professional fees was funded from the primary secured creditor's collateral in the amount of \$350,000 for the Committee's professionals, and \$250,000 for the Debtor's professionals [Robert N. Bassel (Debtor's counsel), and O'Keefe & Associates Consulting, LLC]. All allowed unpaid administrative operating expenses are being paid

by Auxo as part of the Sale and the Plan, including United States Trustee fees.

16. There were no instances where more than one employee of Applicant was present at a hearing or meeting where both professionals charged for their services. There were no instances where Applicant charged for two professionals to perform the same task.

17. As a matter of business-judgment, Applicant wrote-off or no-charged over \$11,374.00 in time that would otherwise have been allowable.

18. Debtor does not object to the fees requested. Upon information and belief, all quarterly fees have been paid, or are in the process of being paid by Auxo which has committed to pay these administrative expenses in this case.

WHEREFORE, O'Keefe, as Financial Advisor to the Debtor, respectfully requests that the Court enter an order providing that: (i) an allowance be awarded to O'Keefe in the amount of \$148,038.00 in fees as compensation for necessary professional services rendered, (ii) and the Liquidating Trustee be authorized and directed to pay O'Keefe the outstanding amounts pursuant to the Plan, less the \$10,000 retainer which

O'Keefe will apply to the outstanding amount, and (iii) for such other and further relief as this Court deems proper.
